

Photo consent form

Friends of the Earth is one of 18 partner charities working with Girlguiding UK for the 'Girlguiding UK: Changing the World' project. Each partner has created a project to **inspire a year of community action** that will show the difference guiding can make in the local, national and global community.

Your daughter/wards' unit has chosen to take action through the 'Be a Climate Champion' project designed by Friends of the Earth.

This project aims to give members a voice on climate change. By taking practical action to tackle climate change and trialing a range of lifestyle changes, the girls will help Friends of the Earth work out ways the Government could make it easier for families all across the country to lead greener lives.

During the challenge, girls are encouraged to showcase and celebrate their achievements online. At www.foe.co.uk/girlguidinguk/ they can upload photographs of their journey towards becoming a Climate Champion.

All photographs of guiding members under 16 require written permission before they are published.

Who can give consent for photographs?

- Parents can give direct consent for their children.
- Members over 16 can give consent for themselves.

We do hope you are able to confirm consent for photographs of your ward / your child / you to be featured in conjunction with the **Be a Climate Champion** Challenge. If not, your daughter / you can still take part in the activities, but the unit Leader will aim to ensure pictures of her will not be uploaded.

Many thanks.

Please complete the information below and return to the unit Leader.

I give permission for photographs of my ward / my child / myself (*delete as applicable*) to be used by Girlguiding UK and Friends of the Earth for the 'Be a Climate Champion' part of Changing the World. My permission covers but is not limited to, websites, publications and press.

Name of unit:
